Phone: +33753432920
Website: stadiumnews.herokuapp.com
Address: Grenoble, France

## WORK EXPERIENCE

Code your Future professional web development course at L-Venture group's Luiss Enlabs hub

Web application for Caritas. I worked on a team building an app that search autocomplete as a final project on the Code Your Future course. I was responsible for the database management and front-end functionalities. We used SCRUM/AGILE methods and communicated with Trello and Slack. The application source can be found in my portfolio below. As part of the course, I also built a social application. The source is at my portfolio below. I developed visual identity for the project in line with Caritas branding guidelines. Also I was an assistant teacher in web security and maintenance, ms word, corel draw, paint card and web design with wapka.mobi
